## Simulation time

Start time: 0.0

Stop time: 0.5

## Solver selection

Type: Fixed-step

Solver: auto (Automatic solver selection)

## ▼ Solver details

Fixed-step size (fundamental sample time):

0.01

## Zero-crossing options

☐ Enable zero-crossing detection for fixed-step simulation

## Tasking and sample time options

Periodic sample time constraint: Unconstrained

☐ Treat each discrete rate as a separate task☐ Allow tasks to execute concurrently on target☐ Automatically handle rate transition for data transfer☐ Allow multiple tasks to access inputs and outputs☐ Higher priority value indicates higher task priority
